# "BETTER BDU BELT" A simpler, more functional, comfortable BDU pants belt

Step 1: Insert Webbing through buckle. Adjust to fit. Step 2: Push forward on tab, insert web through 2nd slot. Step 3: Cinch down tight and you're done!

**Problem:** The current issue BDU pants belt is flimsy, too small for the belt loops on current issue BDUs and it has a buckle that is noisy and tricky to adjust.

**Solution:** The **"Better BDU Belt"** from **SPEC.-OPS.<sup>®</sup>** Brand. Finally, a BDU pants belt that does more than just hold up your pants! The "Better BDU Belt" is made to be the easiest to adjust, most comfortable and is the only **load bearing** pants belt on the market today.

## Features and Benefits of the "Better BDU Belt" :

- **UNIQUE:** One piece, custom molded polymer buckle (pat. pending) is easier to adjust and quieter than its "issue" counterparts.
- **ANTI-MAGNETIC:** Won't set off metal detectors – Airport friendly!
- **COMFORTABLE:** 100 percent adjustable for that perfect fit – especially useful when changing gear for different climates.
- **EASY TO USE:** "Flip-Tab" buckle with "Posi-Grip" contact points allows for fast and easy belt adjustments.
- **DURABLE:** No moving parts / Hook & Loop to prematurely wear out!
- **LOAD-BEARING BELT WEBBING:** Specially woven to carry a maximum side-load with minimal crunching-down - The first of its kind in pants belts.

*NOTE: THIS BELT IS IN NO WAY TO BE CONSIDERED A "SECOND CHANCE"/RAPPELING DEVICE DO NOT USE FOR RAPPELING, CLIMBING, OR PERSONAL SECURITY, HANGING/TIE-IN SITUATIONS! ... This is a pants belt!*
